The Mayor's opinion is that the Fire Department as at present conthe Fire Department as at present constituted is a very efficient one, as good as any in the country; that the principal disavantage it labors under is the very great delay and time lost (under the present plan of communicating an alarm), in getting notice of the existence of a fire. After an alarm is received at any engine house now, there is no loss of time in getting the apparatus out, and quickly to the scene of the fire, and always doing excellent work. While it only takes two or three minutes to get the engine out on the street and under way to the fire after the bell of its own house is CARRIER BOY WANTED-Apply at this or three minutes to get the engine out on the street and under way to the fire after the bell of its own house is sounded, there is rarely less than twenty or thirty minutes lost in communicating an alarm from one part of the city to another, and any plan of alarm that will save the twenty or thirty minutes now house is sounder, and any plan of alarm that will save the twenty or thirty minutes now house in the stand yesterday afternoon. Some of the departments are a little behind in patriolic preparations so party at the Opera House to-night. Some of the departments are a little behind in the work, but we are assured everything will be complete for the opening. We have already given in detail the plans of the lady managers in getting up an entertainment pleasing to the eye and instructive to the mind, and yet we feel satisfied that only the merest outline of the gorgeous display has been foreshadowed, and that the opening night will reveal to visitors the fact that not one-tenth of the attractions have been mentioned. The sta Opera House to-night will more than all typically all that has been said, in a short litter wisit to so many different States of the Union—equal almost to placing "a gridle around the earth in forty minutes."

THE PROGRAMME.

About 8 o'clock the curtain will rise A Configurion.—Mayor Sweeney asks us to say that we misunderstood his position on the fire alarm telegraph question that he did not intend to say that he was and ever had been opposed to the system. What he did mean was that he was opposed to the proposition before the Council, to place in each engine house an additional man at \$750 per annum, and erect the fire alarm telegraph. The friends of the proposition asserted that the telegraph was useless without the additional men, and refused action on any other idea. The Mayor's opinion is that

dressing room are in the building immediately opposite the Opera House, and there is a good tan-bark path across the street. Here hats and cloaks can be left, properly numbered, in the care of a man in attendance. A stairway in the rear leads to an upper room, provided with all the necessaries of a ladies' dressing room.

NAIL PLATE.—No doubt the Riverside
Mill Company rest easy since they have
learned from the Emerald youth from
the Salt Vale that the "Upper Riverside
or Washington Forges," one or both,
will keep them in nail plate. No doubt
they were becoming alarmed and wondering where their supply would come from,
since the same authority, had also informed them that their stock was getting
low. No doubt the Company will send
thim a leather medal and pay his board
for a week at a livery stable, out of sheer
gratitude. There would be no doubt on
any of these points were it not for the fact
that, in the first place, they have nail plate
enought to do them until the new plate mill
is ready to start, and in the second place,

To our the best value for your money and to get Clothing best adapted to your wants, you ought to look through a number of stocks, examine goods, note the variety and compare the prices. Your own judgment will then tell you where to buy. We claim that our stock is the largest, our variety the greatest and our prices the lowest in the city. But we do not ask you to admit our claim without proof. This proof will be furnished by yourself if you will follow the advice given above. Go to all those stores that claim to carry large stocks and sell goods at low prices, then call on us and we will show you a stock incomparably larger than any other kept in Wheeling. Besides our immensely superior stock and variety, we will show you that we sell our goods at from 10 to 15 per cent lower than any other house here. Our stock consists of every description of Men's and Boys' Clothing and Furnishing Goods. Don't fail to call and save a handsome percentage on your purchases.
